Course Edition

COURSE: Indeholder information om kurset: navn, kode, ECTS

- make_course(name: str, code: str, ects: float) - Course
0 ≤ ects ≤ 0
- name(c: Course) -> str:
- code(c: Course) -> str:
- ects(c: Course) -> float:

Student indholder information om navn, studenter nr, karakter på opgaver

- make_student(name: str, number: int) -> Student:
den studerende har ikke en karakter endnu
- name(s: Student) -> str:
- studentnr(s: Student) -> int:
- set_name(s: Student, name: str) -> None:
- set_grade(s: Student, t: AssignmentType, g: grade) -> None

grade = int
val id_grade(g: int) -> bool
tjekker om g er en gyldig karakter
+ konstanter
BESTAET: grade
: NO_GRADE: grade

FIRST_EXERCISE: AssignmentType
PROJECT_ONE: AssignmentType
:

AssignmentGrades
Indeholder info om karakter på de forskellige opgaver
make_assignment() -> AssignmentGrades:
get_grade(a: AssignmentGrades, t: AssignmentType) -> Grade:
set_grade(a: AssignmentGrades, t: AssignmentType) -> None:
(valid_grade(g))

Course Edition

- > indeholder info om et kursus, underviseren, studerende og grupper:
- make_course_edition(c: Course, t: Teacher) -> CourseEdition
- add_student(s: Student, c: CourseEdition) -> None
s må ikke være tilmeldt c
- is_enrolled(id: int, c: CourseEdition) -> bool
- find_student(id: int, c: CourseEdition) -> Student | None
kræver at id eksisterer for effektivitet
- del_student(id: Student, c: CourseEdition) -> None
kræver...

for effektivitet
hvis dokumentering om bivirkninger

add_group(id: int, groupnr: int, c: CourseEdition) -> None:

- kræver: - c har studerende med de givne id'er.
- der findes ingen gruppe med nummer id.
- ingen studerende kan være med i flere grupper
